C.A. RAMAKRISHNAN ESQ., I.C.S.,
Joint Secretary.

SIR GERALD PRIESTLEY, K.C.I.E. I.C.S.,
Commr. of Land Revenue and Irrigation.

Govt. P.W.D. Memo. No. 91-N/46-10 dated 4-12-46

From the Chief Engineer (Irrigation) No. 1810/46-A 23
dated 13-2-47

From the Collector of South Kanara Ref. 8283/46A5
dated 27-2-47

From the Collector of South Kanara Ref. 8283/46A5
dated 29-3-47

Resolution.

Submitted to Government.

2. The Board submits that the investigation work now being done by the Minor Irrigation staff may now itself be transferred to the P.W.D. and that the Minor Irrigation Staff now working in South Kanara Dist. may also be transferred to the P.W.D.

3. The Board also supports the Collector's proposal contained in para 4 of his letter second cited above.

Irrigation - General - (South Kanara) - Coordinated irrigation policy - Transfer of Minor Irrigation works to public Works Department - Further report - submitted

Ref. Board's Ref G 2266/46-13 dated 17-3-1947.

In this office report Ref. 8283-46-A5 dated 27-2-1947 it was proposed that the investigation of the minor irrigation sources may be transferred to the P.W.D., and that the temporary Minor Irrigation staff consisting of one supervisor and 2 lascars may be disbanded as the Revenue Department has no technical experts to supervise their work.

2. The Superintending Engineer, Coimbatore has since sent me a copy of his report to the Chief Engineer for Irrigation, Madras in which he suggests that to avoid overlapping of work by the P.W.D. and the Minor Irrigation staff and for the effective control of the work of the latter, the Minor Irrigation staff in this district may be merged with the P.W.D. staff till the investigation and execution of the irrigation schemes are completed and that thereafter it may be retransferred to the Revenue Department. I agree with his suggestion and recommend that the Minor Irrigation staff working in this district may be merged with the P.W.D. staff as early as possible.

3. As regards the New Well Subsidy scheme sanctioned by Government, the services of the Minor Irrigation staff may be quite necessary as the work involved is simple and it may not require much technical experience. Of course, some additional revenue staff may be necessary and I shall submit my proposals in this regard separately. The Minor Irrigation staff will however, be utilised for work in connection with the Well Scheme in addition to the investigation of Irrigation sources till this staff is transferred to work under the P.W.D.

4. Sanction exists for the retention of the Minor Irrigation Staff in this district up to the dates specified below:-

- | | |
|--------------------------------|-----------|
| 1. Minor Irrigation supervisor | 18-4-1947 |
| 2. Minor Irrigation overseers | 3-4-1947 |
| 3. Minor Irrigation Overseers | 18-7-1947 |

The staff will be continued beyond the date of expiry of the present sanction in anticipation of approval, pending orders of the Government in this matter. I request that my action may be approved and order expedited.

SD. ~~XXXXXX~~
for Collector.

Copy of the letter No. 1810/46-A -23 dated 13-2-47 from the Chief Engineer (Irrigation) Madras to the Board of Revenue.

Sub:- Irrigation - Transfer of Minor Irrigation works in charge of Revenue Department to the P W D
Ref. Govt. Memo. No. 91-N/46-10 dated 4-12-46

I enclose a copy of the letter from the Collector of South Kanara District, Ref. No. 8283-46-A5 dated 22-1-47, from which it will be seen that there is one Minor Irrigation Supervisor and 2 overseers and a few lascars working in the district in connection with the investigation of certain proposed minor Irrigation works, and Grow More Food Schemes. There is no Minor Irrigation staff other than the above and there are also no minor irrigation works in the district now in charge of the Revenue Department, for maintenance. There is therefore no question of taking over any minor irrigation works in charge of the Revenue Department for maintenance on the staff employed on it, by the P.W.D.

2. As regards new investigations to be done and new works to be constructed, it would certainly be desirable for the P.W.D. to do investigation of minor works along with the major works on the lines of the T.R.S. division in other parts of the presidency. I am suggesting to Government the formation of a special division for the investigation and execution of all irrigation projects and G.M.F. schemes in South Kanara district. But due to the non-availability of staff this division may not start work till possibly July or August 1947 and when such a division is formed I would suggest that the minor irrigation supervisor and the two overseers may be transferred to the P.W.D. for carrying out the investigation on the minor schemes, as for P.W.D. schemes. This proposal would be most suitable and may be given effect to when the division and sub divisions asked for are actually sanctioned.

3. Proposals in regard to Chingleput District will be sent separately.

SD.
for CHIEF ENGINEER FOR IRRIGATION.

/Copy of letter No. 8283-46-A5 dated 22nd January 1947 from
Collector of South Kanara to the Chief Engineer for Irrigation.

Sub: Irrigation - Temporary . (South Kanara) - Minor
Irrigation staff for the investigation of
certain Schemes- strength of the staff - Intima-
ted

Ref:- Your Ref. 1810-46-A -20 dated 11-1-1947.

As per sanction accorded in G.O. No. 1654 Rev.
dated 31st July 1946, one minor irrigation Supervisor, two
overseers and three lascars are working in this district in connect-
ion with the investigation of certain Minor Irrigation works
G.M.F. Schemes.

Copy of the letter No. Ref. 8283-46-A5 dated 27-2-1947. from
the Collector of South Kanara to the Board of Revenue.

Subject:- IRRIGATION - General - Coordinated irrigation
policy- transfer of Minor Irrigation works
to Public Works Department - Remarks - Report
- Submitted.

Ref:- Board's Ref. G.2266/46-8 dated 16-1-47
Chief Engineer (Irrigation)'s letter
No. 1810/46-A.16 dated 16-12-46.

There are no minor irrigation works in this District.
Hence no plan of map showing the Minor Irrigation sources is
maintained. Some Irrigation sources which if improved, are
likely to increase production of food crops are being investi-
gated by the Special Minor Irrigation Staff consisting of one
Minor Irrigation Supervisor and 2 Minor Irrigation, Overseers
appointed in G.O. No. 1654 Rev. dated 31-7-46. The work is still
at the preliminary stage of enquiry. The M.I. Staff is now
employed in the investigation of 25 irrigation sources. It has
not been able to make much headway for want of levelling and
other instruments.

2. Each of the proposed works requires detailed investigation
under expert Supervision. The Revenue Department has not got
technical men to supervise the work of the M.I.S. and 2 M.I.Os
and to advise them properly from time to time, both in the
investigation of the several schemes and in the execution and
subsequent maintenance of these works. In the circumstances
I think the entire work on hand should be transferred to the
P.W.D. with advantage and the temporary Minor Irrigation Staff
disbanded forthwith. I request that orders in this matter may
be issued urgently, as otherwise my proposals have got to be
submitted in time for the further retention of the Minor Irriga-
tion staff, whose period of sanction would expire early in
April 1947.

3. A list showing the irrigation sources under investigation
in this district is enclosed.

ii) This office Ref.A5-8283/46 dated 27-2-47.

I invite kind attention of the Board to my references cited, in which I had recommended the transfer of the minor irrigation works on hand to the P.W.D. and also the merging of the minor irrigation staff working in this district with the P.W.D. The Superintending Engineer, Coimbatore, in his letter No.1199-I/284 Q4 dated 2-8-47 to the Chief Engineer, (Irrigation), Madras has also recommended that the Minor Irrigation staff working in this district may be transferred to work under the Executive Engineer, South Kanara Division, if the Government have any intention to continue the staff beyond 31-10-47, on which date the sanction accorded for the retention of the staff in the Government Memo cited above expires. There are 29 schemes listed out for being investigated by the Minor Irrigation Staff. No progress has been made so far in this regard on account of monsoons. Practically only one Minor Irrigation Officer was working in this district during the current official year, and he has been attending to the work connected with the Rural Reconstruction Scheme in Kumbla firka. The work on hand may be therefore ordered to be transferred to the P.W.D. with effect from 1-11-47 for the reasons reported in my letters cited above. I solicit early orders in the matter.

REFERENCE.

Submitted to Government.

2. The Board submits that there is a scheme separately under its consideration for the formation of small tanks in South Kanara District with ayacuts of 50 to 100 acres, by bunding up the lower sides of springs that are available at the head of each of the small valleys, adjoining the main valleys of the rivers. For the investigation of that scheme, the Collector has been asked to apply for the necessary Minor Irrigation staff. With reference to the memo from the Government in the P.W.D. cited above, the Collector is being asked to state whether there is any real necessity for the retention of the special Minor Irrigation staff, sanctioned in the Government memo second cited above, in view of the facts reported in his Ref. A5. 8283/46 dated 3-10-47, and if not, whether the services of the present Minor Irrigation staff can be utilised for the investigation of the scheme for the formation of small tanks, referred to above. The Board is however of the opinion that the investigation of the above scheme will require the services of Minor Irrigation staff. In the circumstances, the Board requests

that the Government may be pleased to sanction for the present, the retention of the Minor Irrigation staff in question for a period of 5 months from 1-11-47 to 31-3-48. and to approve the action of the Collector in having continued the Minor Irrigation staff beyond 31-10-47 in anticipation of sanction.

11.1.2~

Submitted to Government.

2. The Board submits that the investigation work now being done by the Minor Irrigation staff may now itself be transferred to the Public Works Department and that the Minor Irrigation staff now working in South Kanara district may also be transferred to the Public Works Department.

②³ The Board also supports the Collector's proposal contained in para 4 of his letter second cited above.

(Sd) C. Vivekanandamurthi,
Assistant Secretary.

To
The Secretary to Government,
Public Works Department.

Copy of Chief Engineer for Irrigation's letter No.1810/46-A-23
dated 13-2-1947.

Sub:- Irrigation - Transfer of Minor Irrigation works in
charge of Revenue Department to the P.W.D.

Ref:- Govt. Memo No.91-N/46-10, dated 4-12-1946.

I enclose a copy of the letter from the Collector of South Kanara district, Ref.No.8283-46-A5 dated 22-1-47, from which it will be seen that there is one Minor Irrigation Supervisor and 2 overseers and a few lascars working in the district in connection with the investigation of certain proposed minor irrigation works, and grow more food schemes. There is no minor irrigation staff other than the above and there are also no minor irrigation works in the district now in charge of the Revenue Department, for maintenance. There is therefore no question of taking over any minor irrigation works in charge of the Revenue Department for maintenance or the staff employed on it, by the Public Works Department.

2. As regards new investigations to be done and new works to be constructed, it would certainly be desirable for the Public Works Department to do investigation of minor works along with the major works on the presidency. I am suggesting to Government the formation of a special division for the investigation and execution of all irrigation projects and Grow More Food schemes in South Kanara district. But due to the non-availability of staff this division may not start work till possibly July or August 1947 and when such a division is formed I would suggest that the minor irrigation supervisor and the two overseers may be transferred to the P.W.D. for carrying out the investigation on the minor schemes, as for P.W.D. Schemes. This proposal would be most suitable and may be given effect to when the division and sub divisions asked for are actually sanctioned.

3. Proposals in regard to Chingleput district will be sent separately.

Copy of letter No.8283-46-A5 dated 22nd January, 1947 from
Collector of South Kanara to the Chief Engineer (I) Madras.

Sub:- Irrigation - Temporary - (South Kanara)
Minor Irrigation staff for the investigation of certain
schemes - strength of the staff.- Intimated.

Ref:- Your Ref.1810-46-A-20 dated 11-1-1947.

As per sanction accorded in G.O.No.Ms.1654 Revenue
dated 31st July 1946, one minor irrigation supervisor, two
overseers and three lascars are working in this district in
connection with the investigation of certain proposed minor
irrigation works and G.M.F.Schemes.

(Sd).....
Manager.

Copy of South Kanara Collector's Ref.8283-46-A5 dated 27-2-47.

Sub:- Irrigation - General - Coordinated irrigation policy -
Transfer of minor irrigation works to public works department -
Remarks - report - submitted.

Ref:- 1. Board's Ref.G.2266/46-8 dated 16-1-47.
2. Chief Engineer (I)'s letter No.1810/46-A.16 dated
16-12-46.

There are no minor irrigation works in this district.
Hence no plan or map showing the minor irrigation sources ~~are~~
is maintained. Some irrigation sources which if improved, are
likely to increase production of food crops are being investi-
gated by the Special Minor Irrigation staff consisting of one
Minor Irrigation Supervisor and 2 minor irrigation overseers
appointed in G.O.No.1654 Rev. dated 31-7-46. The work is still
at the preliminary stage of enquiry. The M.I. Staff is now
employed in the investigation of 25 irrigation sources. It
has not been able to make much headway for want of levelling
and other instruments.

2. Each of the proposed works requires detailed
investigation under expert supervision. The Revenue Depart-
ment has not got technical men to supervise the work of the
M.I.S. and 2 M.I.Os and to advise them properly from time to
time, both in the investigation of the several schemes and in
the execution and subsequent maintenance of these works. In
the circumstances, I think the entire work on hand should be
transferred to the P.W.D. with advantage and the temporary minor
irrigation staff disbanded forthwith. I request that orders in
this matter may be issued urgently; as otherwise my proposals
have got to be submitted in time for the further retention of
the minor irrigation staff, whose period of sanction would expire
early in April 1947.

A list showing the irrigation sources under inves-
tigation in this district is enclosed.

(Sd) K. Ghulam Mahmood,
for Collector.

p.t.o..

[Copy of Ref. A5. 8283/46 dated 3-10-47 from the Collector of South Kanara.]

Sub: Establishment - (Temporary) - South Kanara District -
Minor Irrigation staff - merging with the P.W.D. -
Orders solicited

Ref: Government Memorandum No. 3089 H/47-2 dated 23-6-47.
This Office Ref. A5. 8283/46 dated 27-2-47 and
29-3-47.

I invite kind attention of the Board to my references cited, in which I had recommended the transfer of the minor irrigation works on hand to the P.W.D. and also the merging of the minor irrigation staff ~~is~~ working in this district with the P.W.D. The Superintending Engineer, Coimbatore, in his letter No. 1199-I/284 Q4 dated 2-8-47 to the Chief Engineer (Irrigation), Madras has also recommended that the Minor Irrigation staff working in this district may be transferred to work under the Executive Engineer, South Kanara Division, if the Government have any intention to continue the staff beyond 31-10-47., on which date the sanction accorded for the retention of the staff in the Government ^{memo} cited above expires. There are 29 schemes listed out for being investigated by the Minor Irrigation staff. No progress has been made so far in this regard on account of monsoons. Practically only one Minor Irrigation Officer was working in this district during the current official year, and he has been attending to the work connected with the Rural Reconstruction scheme in Kumbha firka. The work on hand may be therefore ordered to be transferred to the P.W.D. with effect from 1-11-47 for the reasons reported in my letters cited above. I solicit early orders in the matter.

[Copy of Board's Reference G. 6404/47-1 dated 30-10-47 to the Secretary to Government, Public Works Department.]

Sub: Establishment - (Temporary) - South Kanara District -
Minor Irrigation staff - merging with the P.W.D. -
Orders solicited.

Read: B.P. Mis. 451 dated 11-4-47.
Board's Ref. G. 2632/47-1 dated 1-5-47.

Tanks - Scheme - preparation

Read: Inspection notes of the Commissioner of Land
Revenue & Excise, Madras

Reference:-

A copy of the notes of inspection on "Irrigation Scheme in South Kanara", by the Commissioner of Land Revenue Excise and Prohibition is forwarded to the Collector of South Kanara for an early report on the several points raised therein

2. The Board observes that at the head of each of the small valley adjoining the main valley of the rivers, springs are available from October to February. The Assistant Engineer, (Grow More Food) has suggested the possibility of forming small tanks with ayacuts of 50 to 100 acres by bunding up the lower sides. The Collector is requested to get into touch with the Executive Engineer and prepare a scheme for execution by the Minor Irrigation Staff and submit it to the Board for approval and for getting the sanction of the Government.

3. It has also been suggested that the capacity of the ~~ya~~ ayacut under the second crop of several madagas, or tanks in the flatter regions may be increased. The Collector is requested to examine this question and apply for any special staff that may be necessary for investigation after consulting the Executive Engineer.

Irrigation - South Kanara District

A separate sub-division with a sub-divisional officer and six supervisors had been sanctioned in G.O. No. 3174, dated 5th December 1946 with headquarters at Mangalore for investigation of the irrigation schemes in the Malabar and South Kanara Districts and this was attached to the West Coast Division at Calicut. Three of the Supervisors were intended for work solely in the South Kanara District. The S.D.O. joined duty on 24-3-47, and preliminary work such as preparation of Ayacut plans, fixing up masonry anicut, was done before the monsoon. Collection of rainfall particulars and village plans were attended to during the monsoon. The following estimates were sent to the regular staff :-

	Approximate Estimate. Rs.
(1) Construction of an anicut across Shiriya River in Badur Village limits (Kasaragod taluk)	6,17,000
(2) Construction of an anicut across Gurpur river in Kilavur village limits (Mangalore taluk)	7,15,000
(3) Improvements to Chantar Madaga Tank in Brahmavar village limits (Udipi taluk)	21,000
(4) Kumbala reclamation scheme	80,000
(5) Improvements to Heerkere tank in Kandaver village (Coondapur taluk)	29,000
(6) Improvements to Hunthenkeru Tank (Coondapur taluk)	6,200
(7) Improvements to Thayannakere Tank (Coondapur taluk)	5,300

I inspected Item (3) : Chantar Madaga in Brahmavar in the Udipi Taluk on 4-11-1947. It is proposed to provide for a sluice and a surplus arrangements as well as improvements to the channel at a cost of Rs. 21,000/-.

A new Division for investigation in South Kanara alone was sanctioned in G.O. No. 1850, dated 26-6-1947, with one Executive Engineer, and three supervisors with headquarters at Mangalore. The present Executive Engineer joined duty on 27-10-47, and the Assistant Engineer, Grew more Food, was relieved of his jurisdiction in the Malabar district and joined his present post on 25-10-47. The staff engaged on the gauging of the several streams for ascertaining the summer flow of streams for the second and third crops. The following schemes are now under consideration.

- (1) Construction of an anicut across Bilur stream (Coondapur taluk)
- (2) Construction of an anicut across Mulki River in Palimar village limits (Mangalore Taluk).
- (3) Construction of anicut across Pavangri River (Mangalore taluk).
- (4) Reclamation of swampy lands in Pavangri village (Mangalore taluk).
- (5) Construction of a dam across Nate Channel in Chervattur village limits known as Rammindura Dam (Kasaragod Taluk)

In the case of item (4), of the above list as well as Item (4) of the previous list, it is proposed to reclaim swampy

land by restricting the width of the waterway to permit passage of the flood discharge by throwing a bund one on one side of the deep course, and reclaiming the rest of the fertile bed of the swamps. This method can be adopted for the reclamation of other swamy areas:

I inspected the site of the proposed dam of item (2) within the village limits of Palimar in the Mangalore taluk on 7-11-47. It is proposed to have a low bed dam to the height of two feet above the average bed of the river with vertical iron standards within which plank shutters are to be inserted. The object is to store fresh water and prevent salt water backing up due to tidal action. On one side, provision is to be made for two or more three vents, with screw-gearing shutters to negotiate low floods during the cultivation season. The sill of the vents will be at the original bed level, so that the deposit of silt in front could be washed away. It is said that this will help to cultivate about 400 more acres of second crop. The matter is still under investigation and this will be the first dam of its kind to be constructed by the Government in the place of the existing mud dams with a brushwood at the top which the ryots have customarily have been putting in from year to year across the rivers to impound water for the cultivation of second crop. It is proposed to levy water rate under the scheme, and the ryots have readily agreed to this.

From inquiries made by me with the Officers of the Special Staff in the District, I understand that though no development is possible in the first crop area of about 5.0 lakhs acres, it is possible by careful planning to increase the existing 1.5 lakhs of acres of second crop by another 75,000 - 100,000 acres land; and the existing 20,000 acres of third crop can be increased by a proportionate extent. The water supply for these crops have to be tapped from the rivers, the most important of which are the following :-

1. Shirur Hole
2. Bijur Hole (also called Baindur Hole)
3. Yedamavin Hole
4. Haladi River
5. Sitanadi River
6. Suvannanadi River
7. Udiyavur and Panyal Rivers.
8. Mulki River (Shambavi River)
9. Pavangiri River
10. Gurpur River
11. Netravati River
12. Uppala River
13. Shiriya River
14. Mogra River
15. Chandragiri River
16. Ariyakadavu or Kharigote River.

The facilities for the irrigation of lands on the coastal belt and on the margins of the rivers can be improved. As the Channels may have to be lengthy and taken through hills and valleys, they may be a costly item. The development will therefore have to be on the following lines

Most of the fertile lands in the river margins within the coastal belt of 4 - 5 miles from the sea are subject to saline effects due to tidal action during the 2nd and 3rd crop seasons. Anicuts of suitable design to afford free flow of water during the monsoon to permit storage of fresh water for diversion to the fields, below for the second crop and to prevent saline effects - low level dams with removable plank shutters above up to about one foot above the high tide level - as in the case of the Palimar dam inspected by me on 7-11-1947, have to be provided.

Though there is an abundant rainfall in the district, vast volume of water ~~xxxxxxxxxxxxx~~ ~~xxxxxxxxxx~~ run waste to the sea. It is possible to store water in the reservoirs on the upper ghat regions by constructing masonry dams at suitable sites across the rivers. The water thus stored can be let down in the rivers in the second and third crop seasons by utilising the rivers ~~in-the-second conduit and third crop seasons~~ themselves as canals and diverting it by putting up masonry pick-up anicuts at convenient points where irrigable lands are available. In order that the cost of such schemes is not excessive, it is desirable to select rivers which run between hills and the dams should be short and found on good rock and of the height of about 25 ft. and that the area of land to be submerged by the reservoirs should not contain large extents of costly cultivable lands. Such sites are said to be available across

Long. 74°-40'

(1) Kumber Hole Lat. ~~13°~~ 13°-54' ~~to benefit~~ to benefit 400 acres in Sherur village.

(2) Bijur hole Lat 13°-50'; Long. 74°-42', benefiting 1500 acres.

(3) Haladi River Lat. 13°-50' 36'; Long. 74°-51' to benefit 3000 acres ~~approval is being~~

Approval is being obtained for the investigation of such schemes where pick-up anicuts are likely to be costly, mud dams may be put up across the storage.

At the head of each of the small valleys adjoining the main valleys of the river, springs are available from October to February. It is possible to form small tanks with ayacuts of 50 - 100 acres by bunding up the lower sides. The Collector of South Kanara should get into touch with the Executive Engineer and prepare a scheme for execution by the Minor Irrigation Staff and submit it to the Board. For the information of the Collector, it should be stated that this suggestion has been made by the Assistant Engineer, (Grow More Food), who has studied this question

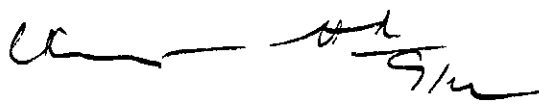

The Collector may be told that it ought to be possible to increase the capacity and the ayacut under the second crop of several madagas ~~of~~ tanks in the flatter regions. This should also be investigated into.

The Collector may be asked to apply for my Special Staff that may be necessary for investigation after consulting the Executive Engineer.

Necessary extract of this note may be sent to the Collector of South Kanara for his information. P

FOR JOINT SECRETARY

Copy of South Kanara Collector's Ref.8283/46-A5 dated 29-3-1947. H.1-2 am

Subj:- Irrigation - General - (South Kanara) - Coordinated irrigation policy - Transfer of minor irrigation works to public works department - further report - submitted.

Ref:- Board's Ref.G.2266-46-13 dated 17-3-47.

In this office report Ref.8285-46-A5 dated 27-2-47 it was proposed that the investigation of the minor irrigation sources may be transferred to the P.W.D., and that the temporary minor irrigation staff consisting of one supervisor and 2 overseers and 3 lascars may be disbanded as the Revenue Dept. has no technical experts to supervise their work.

2. The Superintending Engineer, Coimbatore has since sent me a copy of his report to the Chief Engineer for Irrigation Madras in which he suggests that to avoid overlapping of work by the P.W.D. and the M.I. staff and for the effective control of the work of the latter, the Minor Irrigation staff in this district may be merged with the P.W.D. staff till the investigation and execution of the irrigation schemes are completed and that thereafter it may be retransferred to the Revenue Department. I agree with his suggestion and recommend that the Minor Irrigation staff working in this district may be merged with the P.W.D. staff as early as possible.

3. As regards the New well subsidy scheme sanctioned by Government, the services of the Minor Irrigation staff may not be quite necessary as the work involved is simple and it may not require much technical experience. Of course, some additional revenue staff may be necessary and I shall submit my proposals in this regard separately. The Minor Irrigation staff will however be utilised for work in connection with the well scheme in addition to the investigation of irrigation sources till this staff is transferred to work under the P.W.D.

4. Sanction exists for the retention of the minor irrigation staff in this district up to the dates specified below.

1. Minor Irrigation supervisor	18-4-1947.
1 Minor Irrigation Overseer	3-4-1947.
1 Minor Irrigation overseer	18-7-1947.

The staff will be continued beyond the dates of expiry of the present sanction in anticipation of approval, pending orders of the Government in this matter. I request that my action may be approved and orders expedited.

2. The Board submits that there is a scheme separately under its consideration for the formation of small tanks in South Kanara District with ayacuts of 50 to 100 acres, by bunding up the lower sides of springs that are available at the head of each of the small valleys, adjoining the main valleys of the rivers. For the investigation of that scheme, the Collector has been asked to apply for the necessary Minor Irrigation staff. With reference to the memo from the Government in the P.W.D. cited above, the Collector is being asked to state whether there is any real necessity for the retention of the special Minor Irrigation staff, sanctioned in the Government Memo second cited above, in view of the facts reported in his Ref. A5. 8283/46 dated 3-10-47, and if not, whether the services of the present Minor Irrigation staff can be utilised for the investigation of the scheme for the formation of small tanks, referred to above. The Board is however of the opinion that the investigation of the above scheme will require the services of Minor Irrigation staff. In the circumstances, the Board requests that the Government may be pleased to sanction for the present, the retention of the Minor Irrigation staff in question for a period of 5 months from 1-11-47 to 31-3-48, and to approve the action of the Collector in having continued the Minor Irrigation staff beyond 31-10-47 in anticipation of sanction.

can see orders put S. on p. 14 c.f.
may be over until 26.12.47

From the 1st. of Nov., Ref. G-6404/47-2, d. 9-12-47

To A.P.

This file relates to the retention of the Minor
Irrigation Staff sanctioned in 17 employed under
the sanction last conveyed in Memo. No. 3089-H/47.
Rev. d. 23-6-47. Attention is invited to the Memo. on
p. 14 c.f. and the Board's reply on p. 15-16 c.f. The
Bd. recommends that the Staff may be retained

to 31-3-48. The Bd's. recommendation
may be accepted. Draft order is on hold
for approval

P.W.D. and Finance may see to
acceptance.

3-6-48 (The Collr. and the Gov. did not apply
attention of staff earlier as the Collr. he
proposed the transfer of ^{on} staff in the ad-
P.W.D. and merging the on. i. staff with
W.D. staff.)

placed before the C.F.
has not yet been received back.)
